School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement

Our mission is a Quest for educational excellence in a nurturing 21st century environment that promotes exemplary character, independent thinking, and a desire for lifelong learning.

(revised/discussed 2018-2019)

Provide the school's vision statement

A collaborative learning community on a journey to reach its highest potential.

(revised/discussed 2018-2019)

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Title | Job Duties and Responsibilities |
|--------------------|------------------------|--|
| Boyd, Christine | Principal | Administrators review data, reflect on best practices, and develop professional development based on data. This is done with the Shared Leadership committee, SAC, PTO, and other forums like Coffee with the Principals, engaging all stakeholders. Once data is reviewed and input is collected, the team moves forward in editing the goals to meet needs of the site. |
| Phillips, Tauna | Assistant Principal | Administrators review data, reflect on best practices, and develop professional development based on data. This is done with the Shared Leadership committee, SAC, PTO, and other forums like Coffee with the Principals, engaging all stakeholders. Once data is reviewed and input is collected, the team moves forward in editing the goals to meet needs of the site. Mrs. Phillips also assists with FSA testing, as well as being the MTSS coordinator and ESOL supervisor. |
| Kostka, Julie | Instructional Coach | Instructional Coach sits with administration to review data, reflect on best practices, and develop professional development based on data. This is done with the Shared Leadership committee, SAC, PTO, and other forums like Coffee with the Principals, engaging all stakeholders. Once data is reviewed and input is collected, the team moves forward in editing the goals to meet needs of the site. Randi also assists all grade levels with the iReady diagnostic testing. |

Demographic Information

Principal start date

Saturday 7/1/2017, Christine Boyd E

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

7

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

9

Total number of teacher positions allocated to the school

52

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends

In 2019, our lowest 25% in both ELA and Math have a data component with the lowest performance. Although the lowest 25% showed gains similar to the grade level on the Fall 2020 iReady Diagnostic Test, this group is still performing lower than their peers. Particular subgroups, ESE, ELL, and low Socioeconomic are all contributing factors. Not having all activities aligned to standards based instruction, in both ELA and Math, as well as building our inclusion model for ESE and ELL students are factors as well.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline

In 2019, the biggest decline was in our ESE, lowest 25%. The factors were an increase of students in ESE, change in ESE staffing, and inconsistent data collection supporting accommodations.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends

Quest, overall, in 2019, is about 30% higher than the state average in most sub-groups. However, the economically disadvantaged has a smaller gap increase than other subgroups. This is reflected into our Hispanic population and our lowest 25%, as well as our ELL subgroup.

Which data component showed the most improvement? What new actions did your school take in this area?

In 2019, our 5th Grade, level 3-5 Percentage increased from 74 to 88. This was the largest percentage increase in all grade levels, in ELA or Math. The fifth grade team focused on common planning and aligning assessments with the standards. They also incorporated a Walk to Intervention at their grade level.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Though it was not shown in our 2019 EWS data, one potential area of concern is our learning gains for our top 25 %. Our learning gains dropped this past school year. When the data was broken down more specifically, it showed that our Level 5's do not always stay Level 5's and our other higher students are not moving up in levels.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year

1. Lowest 25 %
2. ESE and ELL Subgroup
3. Highest 25%

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale:

According to FSA 2019 data, our lowest 25% decreased in both ELA and Math. ELA decreased by 5%. Math decreased by 7 percent. Our ESE subgroup fell within that lowest 25% typically. The Fall 2020 iReady Diagnostic Data showed that our bottom 25% demonstrated gains similar to their peers (from the Winter 2020 assessment); however, they are still working below that of their peers.
 2019-20 classroom walk-throughs show that the majority of teachers are using complex text to support their instruction; however there is a need to focus on tasks aligned to the full intent of the standard in 20-21.
 Collaborative data chats are becoming embedded and now a need to focus on multiple sources of data to make instructional decisions for both tier 1 and tier 2 is evident. This will be a focus as well in 20-21.
 We will additionally be addressing those students who show gaps from our iReady Diagnostic in September from Distant Learning due to COVID.

Measureable Outcome:

In 2019, our ESE subgroup, lowest 25% will increase the learning gains from 65 to 70 in ELA and 67 to 72 in Math.
 Targeting students that score 1-2 grade levels below on the iReady Diagnostic at the beginning of the school year.

Person responsible for monitoring outcome:

Christine Boyd (boyd.christine@brevardschools.org)

Evidence-based Strategy:

Standards-based planning (collaboratively between general education teachers, ESE teachers, and ELL teacher) to focus on grade level assessments and iReady Standards Mastery in 3rd through 6th grades. Teacher clarity is imperative and will include Standards Focus Board usage school-wide.

Rationale for Evidence-based Strategy:

Teacher clarity is imperative for successful instruction. Hattie's effect size for organizing instruction (.64), explaining content (.70), and assessment of student learning (.64) make this an important area to focus on. Learning gains for the bottom 25% will occur with effective planning, instruction, and assessment are utilized.

Action Steps to Implement

Standards Focus Boards

- Teachers will post learning targets; communicate to students throughout lessons.
- Administration will provide Standards Focus Board PD for staff; instructional coach will model where needed.

ELA

- Continue walkthroughs looking for complex text in all lessons- 100% teachers goal- begin looking for task alignment to full-intent of standard. Instructional coach provides support during collaborative planning.
- School-wide Write Score use to assist in common language across grade levels. ESE graphic organizer usage is successful; ESOL will begin use.
- Data chat meetings will use revamped worksheet looking at tier 1/2 student data. Walk-to-Intervention will use common planning, approved curriculum/ progress monitoring.
- Tutoring support for students 1-2 grade levels below.

Math

- Teachers implement Eureka pacing with fidelity and provide intervention with iReady/Zearn

lessons. Instructional coach will assist teachers as needed.

-Instructional coach will model/ coteach as needed and refer to online video PD.

-Tutoring support for students 1-2 grade levels below.

Person Responsible Christine Boyd (boyd.christine@brevardschools.org)

#2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale: Though it is not listed in EWS data, the highest 25% of students, in 2019, show a pattern of decreasing from a 5 to a 4 or not keeping the learning gains from year to year.

Measureable Outcome: In 2020, 80% of our highest 25% will show a Learning Gain.

Person responsible for monitoring outcome: Christine Boyd (boyd.christine@brevardschools.org)

Evidence-based Strategy: Standards-based planning (collaboratively between general education teachers, ESE teachers, and ELL teacher) to focus on grade level assessments and iReady Standards Mastery in 3rd through 6th grades. Teacher clarity is imperative and will include Standards Focus Board usage school-wide.

Rationale for Evidence-based Strategy: Teacher clarity is imperative for successful instruction. Hattie's effect size for organizing instruction (.64), explaining content (.70), and assessment of student learning (.64) make this an important area to focus on. Learning gains on the FSA for the top 25% will occur with effective instruction.

Action Steps to Implement

Standards Focus Boards

-Teachers will post learning targets; communicate to students throughout lessons.

-Administration will provide Standards Focus Board PD for staff; instructional coach will model where needed.

ELA

-Continue walkthroughs looking for complex text in all lessons with 100% of teachers; begin walkthroughs looking for task alignment to full intent of the standard. Instructional coach will provide support during collaborative planning.

-School-wide Write Score use to assist in common language across grade levels. ESE graphic organizer usage is successful; ESOL will begin use.

-Data chat meetings will use revamped worksheet looking at tier 1/2 student data. Walk-to-Intervention will use common planning, approved curriculum/ progress monitoring.

Math

-Teachers will implement Eureka pacing with fidelity and provide students intervention with iReady/ Zearn lessons. Instructional coach will assist teachers as needed.

-Instructional coach will model/ coteach as needed and refer to online video PD.

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

This will be supported by having in person or online Parent Evenings; Writing, Reading, or Math Strategies to Support your Child at home. We will also provide support in the area of interpreting iReady data for the parents. Need noted in our parent survey with 75% of our parents wanted Academic Support Resources at home.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Quest involves stakeholders throughout the decision making and planning of the school year. There is a strong partnership between the PTO and Administration. We work collaboratively on events that support family engagement at the school site and parent volunteerism.

Administration holds 3 Coffee with the Principals a year, with the parents and community members. We touch on topics relative to the school population, topics requested by our parents, and answer upcoming questions.

Through our parent survey, with over 72% wanting additional resources on how to help their child in school, we conducted 2 literacy nights each year, as well as math support for parents. With teacher input in our leadership meetings and staff survey, we have created a strong communication system with our families using email, text, websites, and social media. These steps support over a 1 point increase in Leadership and School Operations on the Staff Insight Survey.

Through analysis of the student survey, Youth Truth, we added more social emotional supports addressing bullying, including the implementation of the Sanford Harmony Program, the Counselors Cottage teaching small group lessons on bullying and friendship, and lunch bunch for to have individualized conversations with our guidance team.

It was ultimately through our School Data, SAC and parent surveys that has guided us to offer enrichment programs within the school day, including advanced math and grade level reading enrichment groups.

Our vision and goals support a collaborative community with all stakeholders.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
